

RODA[®] CARE 5754 - Base coat compound

Product properties	<p>RODA[®] CARE 5754 is a ready-to-use compound specifically formulated to cover defects present in full grain leather, particularly suitable for nappa and special smooth finishing for upholstery and automotive articles. The main advantages obtained by using RODA[®] CARE 5754 are:</p> <ul style="list-style-type: none">• Excellent sealing capacity resulting in good coverage of small and medium defects on full grain leather without any overloading;• Good adhesion;• Enlargement of the usable surface area, which results in greater exploitation of the finished leather;• Application with modern and efficient systems, which enable a high volume of leather production
Application	<p>RODA[®] CARE 5754 is applied by reverse roller coater with the quantity employed varying from 20 to 30g/m² according to the type of leather. After RODA[®] CARE 5754 has been applied, the leather should be left to set 12 hours before proceeding with the finishing operations.</p>
Chemical nature	Formulated by water based acrylic polymers, polyurethanes and fillers
Appearance	White opaque paste
solids	32,5 - 34,5%
pH	8,5 - 10,0
Charge	Anionic
Storage	The product can be stored in its original packaging between 5°C and 35°C for 6 months.
Safety	For safety information see the safety data sheet
